

Script Video Fifteen: Thank you and acknowledgements

The story of Alice, Yousuf, Theodor and Nora is at its end.

Our protagonists were put in a number of situations that I hope have given you a better understanding of what legally being a citizen scientists mean.

Naturally, in this course, there have been numerous issues that were not covered. Also, each situation you will find yourself in will have unique context and specific persons involved.

However, from a legal and real-life perspective, if there is good will in all parties a way forward will be easy to find.

As last words of advice to the curious minds, I will ask you to be open to embrace different attitudes and ways of doing things. Being a citizen scientist is not only a journey to help the advance of humanity, but also a path to be a better person yourself.

This course would not have been possible without the kind help of Alice Sheppard, Albina Waibl, Todor Dimitrov, Ivaylo Dimitrov, Boris Petrov and my sister Maria Kyoseva. I want to thank them all.

I also want to thank the gentle viewer of this module. I hope it was helpful and engaging.
